Subject: Data packages

Gerry see if this helps:

Source of Data	Type of data included	Date received by EPA
DEP- Oil and Gas Program	sampling results in PDF form from DEP, CABOT and others who had sampled the 18 wells associated with the DEP Orders with Cabot regarding methane migration in the Dimock Area. 18 wells service 19 homes (2 at the Carter property). Sample results include methane, ethane, metals and some limited organics data taken from summer of 2008 to mid 2011. Some homes very limited data others extensive sampling results pre and post treatment.	11/1/11 as PDF files resent as EXCEL files on 1/18/12
Tate Kunkle- counsel for Residents	-2 Test America data (partial packages) of data from sample reports dated 9/13/11 and 10/05/11, for sampling conducted in August and September respectively on several (about 4) homes included in the DEP Order. It also included the first data for some previously unknown locations. The analysis included both volatile and semi-volatile organics analysis not previously seen for the wells. -The package also contained some duplicate samples from the DEP data set for some homes and some additional Test America data for Methane analysis -Also included 2 URS spill reports on spills in the vicinity of Hubbard 2H/4H (dated April 9, 2010) and Heitsman 2V/4H (dated May 2010) well pads	Dec 6,2011 letter from Mr. Tate Kunkle to Trish Taylor in follow up to our request in the field to residents and Mr. Kunkle to send us any data they might have
